The State of Delaware Employee Benefits Committee Selects Best Doctors to Improve the Quality of Healthcare for State and Local Employees and Retirees

More than 108,000 Employees, Pensioners and Family Members Have Access to the Country's Top Medical Experts for Correct Diagnosis and Treatment of Serious Illnesses

Boston, MA– July 20, 2007 – Best Doctors® Inc., the trusted resource to patients and physicians in delivering the right diagnosis and the right treatment, today announced that the State of Delaware Employee Benefits Committee (SEBC) has selected Best Doctors to administer a diagnosis evaluation program for the state group health insurance program. The agreement between the state and Best Doctors is expected to be for a one-year duration with up to three one-year optional renewals. The state program covers more than 108,000 eligible state and local employees, pensioners and their dependents.

Now, State of Delaware employees, pensioners and their eligible family members who are uncertain of a serious diagnosis or have questions about their treatment plan, can receive answers from world-renowned doctors. Through the Best Doctors service, an expert doctor conducts a thorough analysis of the member's case based on all medical records and tests. The member receives a comprehensive, easy-to-understand report summarizing the findings that they can use to work with their treating physician to be sure they have the right diagnosis and best course of treatment.

-more-

“The SEBC has worked hard to provide a quality healthcare program for our employees. The service offered by Best Doctors will become an integral part of this program. Employees and their eligible family members will have access to advanced medical expertise when faced with decisions about the diagnosis and treatment of serious health conditions,” said OMB Director and SEBC Chair Jennifer Davis.

“The State of Delaware is committed to ensuring their employees have access to outstanding healthcare,” said David Seligman, CEO of Best Doctors, Inc. “We are pleased to partner with the State of Delaware to provide their employees a superior resource that can have a real impact on the quality of their healthcare.”

“By ensuring the right diagnosis for those individuals with serious conditions, we cannot only expect to eliminate unnecessary spending, but most importantly we will ensure the highest quality of care for our employees and pensioners,” said Director Davis.

About Best Doctors

Best Doctors® is the trusted resource to patients and physicians in delivering the right diagnosis and the right treatment. The Company serves employers, health plans and financial institutions by dramatically improving the quality of healthcare at the point of treatment for individuals with complex and serious illnesses.
