EMC Selects Best Doctors to Help Employees Access Top Medical Expertise

Groundbreaking Program Generates Strong Employee Response

Boston, MA – June 4, 2007 - Best Doctors®, the trusted resource to patients and physicians in delivering the right diagnosis and the right treatment, today announced that EMC Corporation has made the Best Doctors unique diagnosis evaluation service available to its U.S. employee population. Through Best Doctors, employees and their eligible family members have access to advanced medical expertise when faced with decisions about the diagnosis and treatment of serious health conditions

“EMC employees and their family members deserve the best quality healthcare available,” said Delia Vetter, Senior Director, Benefits and Programs, at EMC. “Finding the right medical advice and treatment can sometimes be challenging, especially when it involves a complex case. The Best Doctors program makes it possible for our employees to tap into world-class medical expertise that can have potentially life-changing impact on their health.”

EMC introduced Best Doctors to its U.S. employees in January 2007 with a comprehensive education program, and received a positive level of response from interested employees. Employees and their eligible family members, diagnosed with serious or complex illnesses, can access Best Doctors’ leading health experts to obtain a diagnostic assessment of all of the pertinent medical information about their case, which they can use with their physicians to determine the best course of treatment.

“Leading employers, like EMC, are dedicated to providing outstanding benefits to their employees,” said David Seligman, CEO of Best Doctors, Inc. “We are pleased to partner with EMC to offer this valuable program that gives patients a resource to turn to when they need to be informed and confident about the diagnosis or treatment they are receiving.”

About Best Doctors

Best Doctors® is the trusted resource to patients and physicians in delivering the right diagnosis and the right treatment. The company serves employers and health plans by dramatically improving the quality of healthcare at the point of treatment for individuals with complex and serious illnesses. Founded in 1989 by two Harvard Medical School professors, Best Doctors serves more than 260 insurers, employers and health plans, touching 10 million people in 30 countries.
