**Guarantee Trust Life Insurance Company Selects Best Doctors to Improve Healthcare
Quality for Group Retiree Health Plan Members**

*Valuable Program Helps Retirees Partner with Their Physicians to
Ensure Correct Diagnosis and Treatment*

Boston, MA—May 1, 2007—Best Doctors®, the trusted partner to patients and physicians in delivering the right diagnosis and the right treatment, announced today that Guarantee Trust Life (GTL) of Glenview, Illinois, is making the Best Doctors services available to help its Group Retiree Health Plan insureds obtain the highest quality healthcare when they are diagnosed with a qualifying critical illness.

Through the Best Doctors services, retiree health plan insureds, who have a qualifying critical illness, now have access to an expert diagnostic assessment team to help ensure they get the right diagnosis and the right treatment. Additionally, the Best Doctors program offers help navigating the healthcare system to find the most appropriate doctors for their condition. These Best Doctors options are included as part of the GTL Retiree Health Plan as a voluntary service to complement the plan.

“The Baby Boomers are moving into retirement age. This is a very educated population, and one that will benefit most from a service like Best Doctors,” said Michael Naumann, national sales director for the group division of Guarantee Trust Life. “Guarantee Trust Life brings value to self-insured employers and delivers solutions for their retirees’ specific needs. We enable members to choose their own physicians anywhere in the U.S., empowering them to get actively involved in their own healthcare.

Best Doctors' programs and services offer a level of choice, further enabling our insureds to affect a real change in their healthcare quality improvement and cost management experience."

"More than ever, patients need a trusted source to help them get the right answers when faced with critical illnesses," said David Seligman, CEO of Best Doctors, Inc. "By offering Best Doctors, Guarantee Trust Life gives their retiree health plan insureds access to the information they need to work with their physicians to get the right care."
